Home About Find Green Employers

## Home

Welcome to the **Hawaii Directory of Green Employers** website. This growing online directory will help you to [find Green Employers](#) in Hawaii.

The Hawaii Department of Labor and Industrial Relations (DLIR) defines green employers as businesses that employ workers in occupations in these core areas:

- Generate clean, renewable, sustainable Energy
- Reduce pollution and waste; conserve natural resources; recycle
- Energy efficiency
- Education, training and support of green workforce
- Natural, sustainable, environmentally-friendly production

Read [Hawaii's Green Definitions](#) for more information.

In this Directory, employers can post profiles that describe their operations, specify their core occupations, and describe the skills and education they want in employees. Jobseekers, students, their counselors and advisors, and others can access the employer profiles to learn about these companies and the workers they require.

# Green Job Ads and Other Info

The screenshot displays the Hawaii Green Jobs Initiative website interface. The top navigation bar includes the Department of Labor and Industrial Relations logo and the text "hawai'i green jobs initiative". Below this, a search form is visible with fields for "Zip Code" (96822) and "Radius" (10 miles). A sidebar on the left contains a "Data Dashboard" with charts for "Area Numbers and Trends", "Industry Trends", and "Occupational Profiles". The main content area shows a list of job openings in Maui County, with a table of results.

**2011 PACIFIC BIODIESEL SELECTED AS 2011 GREEN JOBS AWARD HONOREE**  
 Pacific Biodiesel is one of just seven companies in the nation to be recognized by the RUF (Sustainable Jobs Fund) Institute as a 2011 Green Jobs Award honoree. The Green Jobs Award honors private businesses that contribute to both the economy and the environment. Applicants are judged on their contribution to environmental quality, the quality of their jobs and benefits, the diversity of employment opportunities, and their level of community engagement. In the past year Pacific Biodiesel's Hawaii operations has added 10 new staff positions and its new project, Big Island Biodiesel, created 85 construction jobs. "We are excited to be growing and supporting more and more families with jobs that are fulfilling, dynamic and making a difference in our communities and our nation," noted Kelly King, Pacific Biodiesel Vice President.

# More Work Ahead

Results of Initial Evaluation of Outcomes Measured the Following:

# Early Impact- Value and Challenges

- Green LMI research has a unique contribution to workforce development; green economy.
- Value of Green LMI increases when presented with other information (e.g. employers).
- There is need to improve and expand info; continue to clarify as clean energy economy evolves.
- Promising LMI Improvement practices include metrics, online solutions, culture of learning and innovation, and branding.
- Sustaining effort is an ongoing challenge.

Mahalo!
