

Green Apple Day of Service Pearl City High School Bokashi Garden Workday by USGBC Hawaii

Fourteen volunteers converged on Pearl City High School's campus on Sept 28, 2013 to assist Zero Waste project recycling coordinator Mindy Jaffe. Workers cleared a new area near the portables and broke ground for a series of *bokashi* compost piles, including filling pits with school lunch-compost and doing sheet mulching. Plants grown in the *bokashi* garden will be sold and will go toward PCHS' Special Education students and their activities. Volunteers also enjoyed a tour of the soldier fly and hot compost areas of the project.
