

APPENDIX HONOLULU-5

**Storm Drainage and Dewatering Permit
City and County of Honolulu
Department of Planning and Permitting (DPP)
Site Development Division**

Permit Packet Includes:

1. Process Overview
2. Application Form for a Construction Storm Drainage and Dewatering Permit for Discharge into the City and County Separate Storm Sewer System

Note: The DPP Site Development Division Master Application Form is only available as a secure document from the DPP website (see web link below).

Approval or Permit Required: To remove water from a construction area, as by pumping from an excavation or location where water covers the planned working surface or to lower the groundwater table in order to obtain a "dry" area in the vicinity of an excavation which would otherwise extend below water.

APPENDIX HONOLULU-5

**Storm Drainage and Dewatering Permit
City and County of Honolulu
Department of Planning and Permitting (DPP)
Site Development Division
Steps**

1. Complete and submit the "Site Development Division Master Application Form", and the "Application Form for a Construction Dewatering Permit for Discharge into the City and County Separate Storm Sewer System".

2. Complete a National Pollutant Discharge Elimination System (NPDES) Permit with the Hawaii Department of Health (DOH), as applicable.

Note: Any dewatering discharge into state waters will require an NPDES permit from the department of health under Chapter 11-55, "Water Pollution Control." Any dewatering discharge into the city-owned storm sewer system will require a construction dewatering permit from the director of planning and permitting and an NPDES permit for the discharge of any pollutant into state waters through the city-owned storm sewer system from the department of health, State of Hawaii.

3. The application is denied, accepted, or accepted with modification.

(Timeline not provided)

Fees	Amount
Permit application fee	\$100
Total Fees:	\$100
