A colorful, abstract illustration of a person in traditional Hawaiian attire, possibly a hula dancer, holding a string of beads. The background is a vibrant mix of orange, yellow, red, and blue, with a large sun-like shape on the left. The person is wearing a red top with green leaves and a white skirt. The string of beads is a mix of red, orange, and yellow, and is held in both hands, extending across the frame.

Ka Hei

*Harnessing Sustainability
for Student Success*

A program to build clean, renewable energy, improve the energy efficiency of facilities, and educate students about sustainability

Currently, the DOE spends more than \$62 million a year on electricity, gas, water and sewage fees – a 50 percent increase over the past 10 years

of Education

Ka Hei

A program to build clean, renewable energy, improve the energy efficiency of facilities, and educate students about sustainability

Ka Hei is a specific type of snare made with ropes, and is what the Hawaiian god Maui used to capture the sun in the Hawaiian tradition.

Another meaning is “to absorb as knowledge or skill.”
