### Hawai'i Interisland Renewable Energy Program: Wind

Comments must be postmarked by March 1, 2011.

Thank you for participating in the public meeting process for the Hawai'i Interisland Renewable Energy Program: Wind - Environmental Impact Statement. We invite you to use this form to provide your public comments for consideration as we prepare for the Draft Environmental Impact Statement (DEIS).

When providing your comments, please be as specific as possible. Also, please write clearly so we can read your comments. If you complete this form at today's meeting, you can drop it in the comment box provided. If you do not wish to complete your comments during this meeting, this form is designed so you can take it home, fill it out, and easily mail it in (see the other side for directions). Your input into this scoping process is needed and appreciated. If you wish to be notified of the availability of the Draft EIS, please check here  and provide your name, mailing address and/or e-mail address below.

#### COMMENTS

The Wind Farm project is short-sighted. Our future is in the sea. It would be more reasonable to try to have an energy project with algae that would provide energy forever without disruption to ecobalances. It is impossible to restore the land and, more importantly, the ocean, once the wind farm is removed from Lanai. While the farm is being constructed, the land will be violated, species that are endangered may disappear forever, and the delicate ocean balance will be put at risk. I am opposed to the short sighted wind farm project. In the long run, it is far too expensive. It gives little, and takes what is priceless. Please consider alternatives to the wind farm such as I have suggested above. I thank you for consideration of my input.

Sincerely,  
Carol Bushkey
