Hawai'i Interisland Renewable Energy Program: Wind

Comments must be postmarked by March 1, 2011.

Thank you for participating in the public meeting process for the Hawai'i Interisland Renewable Energy Program: Wind - Environmental Impact Statement. We invite you to use this form to provide your public comments for consideration as we prepare for the Draft Environmental Impact Statement (DEIS).

When providing your comments, please be as specific as possible. Also, please write clearly so we can read your comments. If you complete this form at today's meeting, you can drop it in the comment box provided. If you do not wish to complete your comments during this meeting, this form is designed so you can take it home, fill it out, and easily mail it in (see the other side for directions). Your input into this scoping process is needed and appreciated. If you wish to be notified of the availability of the Draft EIS, please check here [] and provide your name, mailing address and/or e-mail address below.

COMMENTS

- Severe conservation for Oahu. Mandatory conservation for all residences and commercial facilities.
- Show us the research with the review of energy alternatives. Wind is not the best.
- Cost of cable could put photovoltaics on every house. Less impact and a quick way to get off of fossil fuels.
- HELCO is driving the process. It needs to reinvent itself. Rates need to set rates differently.
- State becomes a utility by transmitting electricity. Wow!
- RFP process was not fair.
- Shame on bullying Molokai Properties Private property rights. They don't want to do anything against the community. They are sensitive

Ways to provide written scoping comments:

- To the community, not the state!
- Open space is valuable and something to protect.
- Environmental impact is driven by money Dept. of Business, Economic Development & Tourism Strategic Industries Division/ Renewable Energy Branch P.O. Box 2359 Honolulu, HI 96804 ATTN: Allen G. Kam, AICP, HIREP EIS Manager not quality input.
Impacts will be the harbors, roads, transmission lines, etc. It all has a major impact.
- Impact of earthquakes. Windmills don't tolerate movement. No security.

Program Area

- No to the cable; no to the windmills on Molokai.
 - Process stinks. It is not about input. Different process. Go back and look at different energy forms.
