I am concerned about what the land will happen when the earth or the land shakes by old heavy construction, it might create errution. The hunting and fishing are affected because my children love to go hunting and fishing. I'm worried what will it do to the fishes or creatures of the sea about the big pipe that will go through Honolulu. The birds that migrate from other islands will be possibly harm.

Also, the Hawaiian archaeology must be preserved and should be honored because I heard their Gods step on those places first on this island. Please do all the studies and weigh them down carefully. Thank you.
Ways to provide written scoping comments:
1. Complete this form today and leave it and/or other written comments in the comment box provided.
