I am concern about what the 200 windmills will do to the island. I lived on this island since 1968. I raised my nine children here. My 3 sons and one daughter and their families live here. We often go fishing and camping on the said places where turbines will be built. We love to go fishing and they also love to go hunting. I am worried that all these will stop, and the wild animals will all be gone. Also, how are the fishes, Are they going to be safe with the big pipe connecting the 2 islands. I also respect the Hawaiian sites or sacred places. I would like those to be preserve. The beauty of the island will not be the same also. Please study all these and hope that all will be okay.
