Testimony of
SCOTT J. GLENN, Chief Energy Officer

before the
HOUSE COMMITTEE ON CONSUMER PROTECTION & COMMERCE

Thursday, February 10, 2022
2:00 PM
State Capitol, Conference Room 329 & Videoconference

**COMMENTS
HB 1807 HD1
RELATING TO ENERGY INTERCONNECTION.**

Chair Johanson, Vice Chair Kitagawa, and Members of the Committee, the Hawai'i State Energy Office (HSEO) offers comments on HB 1807, HD1, which Directs the public utilities commission to adopt guidelines for interconnection applications that would trigger distribution, transmission, or other utility infrastructure upgrade costs in excess of a threshold determined by the commission.

HSEO's comments are guided by its mission to promote energy efficiency, renewable energy, and clean transportation to help achieve a resilient, clean energy, decarbonized economy.

HSEO notes that the use of non-wires alternatives is frequently discussed and included in proceedings of the Hawai'i PUC, and is required of Hawai'i's electric utilities. Non-wires alternatives are acknowledged components of cost control strategies, and Hawai'i continues to receive recognition for progress in this area.

Allowing the PUC to continue to incorporate these requirements in all appropriate situations would provide flexibility as needs, conditions, and technologies change.

Thank you for the opportunity to testify.
