

WYNDHAM
VACATION OWNERSHIP®

Wyndham at Waikiki Beach Walk® Vacation Owners Association

We are adopting best practices and building a culture that continuously strives to improve and sustain our positive environmental results over time. We will work globally and act locally by :

- Developing environmental programs, products and services
- Setting environmental impact targets and measuring performance of green programs
- Working with our associates, suppliers, owners and local communities to minimize our environmental impact
- Complying with climate policies and environmental laws

Through our various Wyndham Green programs, our main areas of focus include:

- Educate, influence and provide value to internal and external stakeholders
- Reduce energy consumption and track performance
- Reduce water and energy usage and recycle
- Minimize waste by recycling and reusing materials
- Participate in local community programs that contribute to the wellness of our environment

Greening Committees

- Resort team meets monthly to discuss greening issues:
 - Utility Consumption
 - Best Practices
 - Projects and Ideas

Green Paper Products

Toilet Tissue

Kitchen Paper
Towel

Facial Tissue

Green Products in the Unit

Laundry
Detergent

Auto Dish
Detergent

Dish Liquid
Detergent

WHOA FAT Oil Box

Elimination of Water Bottle

Energy Saving Timer

EV Charging Station

- Quick Charging Station located at the parking garage for our guest to use

100 % Recycled Paper

Low VOC Paint

Water Conservation

- We are addressing ways to reduce water use by using products and implementing services and environmental programs that promote cleaner water as well as more conservative and efficient consumption
- Online Usage Tracking System

WYNDHAM GREEN

Water Conservation

- Install low flow faucets, sensor flush valves, shower heads, toilets, and appliances.
- 1.5 Gallon/min – faucets & shower heads

Water Saving Sensor

Energy Conservation

- We are working together to reduce energy consumption. Through environmental programs that help increase awareness, innovation and teamwork, we are establishing green initiatives that target new, energy-saving alternatives

Energy Conservation

- Change lights to energy efficient bulbs and fixtures
- Place sensors light in public places and storage areas
- Use the Wyndham online tracking system to measure and reduce energy consumption

CFL / LED Light Bulbs

LCD TV

Recycle & Re-Use

- Wyndham Worldwide green programs are adapting green practices to reduce the amount of glass, paper and plastic waste they generate, from substituting printed correspondence with e-mail, to the addition of single-stream recycling bins, to using FSC-certified recycled paper

Green Recycling Bag

Common Area Recycling Recycling Bins in Public Area

Plastic & Aluminum Recycling

- Housekeeping staff sorts bottles & cans
- Managers take truck loads to recycling center

EZ Recycling Bin

EZ Recycling

Please combine the following recyclable materials into **ONE** Container:

Plastic Bottles/ Jugs
Glass Bottles, Newspapers, Office Paper, Cardboard, Aluminum Cans

Please **NO** Magazines, Gloss Paper,
Telephone Books, Ceramics, Polystyrene Foam,
Plastic Bags, Toys, Confetti, Shredded Paper or

TRASH!!

Fluorescent Bulb Recycling

Toner Cartridge Recycling

Community Environmental

- Reach out the local community
- Work with other organizations to plant trees
- Donate amenities, linen, and furniture to local charities
- Develop green programs with local communities like outdoor clean up

Waikiki Elementary School Grass Planning Event

Community Service at IHS

Wishes By Wyndham

Left over non-perishable items from guest donated to Aloha Harvest and Hawaii Food Bank

Donation

- Donate unclaimed Lost and Found items and used kitchenware to local communities such as:
 - Goodwill
 - Savers
 - Habitat for Humanity

savers

Mahalo !
