Subject: [HIREP Wind EIS] New Comment

A New Comment has been Submitted

was the 2nd signed up via email to make oral comments at the molokai hirep scoping meeting on 2/3/2011..the agenda and printed information was appreciated...but what was not acceptable was after one and a half hours of observing the information available no question and answer or dialogue was allowed but only oral comments on a premature grand wind energy solve all problems idea thought up by experts was asking the molokai island residence for some kind of comments that becomes reality supposedly in the year 2030...what we need to tell you experts is we are concerned about our energy needs today..now now now....ect. ect. ect.
