Hawai'i Interisland Renewable Energy Program: Wind

Comments must be postmarked by March 1, 2011.

Thank you for participating in the public meeting process for the Hawai'i Interisland Renewable Energy Program: Wind - Environmental Impact Statement. We invite you to use this form to provide your public comments for consideration as we prepare for the Draft Environmental Impact Statement (DEIS).

When providing your comments, please be as specific as possible. Also, please write clearly so we can read your comments. If you complete this form at today's meeting, you can drop it in the comment box provided. If you do not wish to complete your comments during this meeting, this form is designed so you can take it home, fill it out, and easily mail it in (see the other side for directions). Your input into this scoping process is needed and appreciated. If you wish to be notified of the availability of the Draft EIS, please check here [] and provide your name, mailing address and/or e-mail address below.

We are the next generation that will be living on this island and we don't want the windmills. First of all the energy isn't even going to us. Also all the land that the windmills will be taking over is like mostly all of our hunting and fishing areas. Me as a hunter and fisher don't want this to be taken away, it's one of my favorite things to do on this island. Without these areas what else will I do? It isn't only me that would be sad because our whole family likes to go to these places to just relax and have fun. When the windmills occupy most of the land where will all the deer go, also what will happen to the historical places it will be destroying? People say we need to stop the pollution and be green? I know the windmills will be good but doesn't all that construction just cause pollution?
