COMMUNITY DISCUSSION ON ELECTRIC UTILITY REGULATORY MODELS

WAIAKEA HIGH SCHOOL

DINING HALL

JUNE 21, 2018

5:30-7:00 P.M.

Arrival time: 5:15 P.M.

Under the direction of the Hawaii State Legislature, the Hawaii State Energy Office (HSEO) within the Department of Business, Economic Development and Tourism (DBEDT) is undertaking a study on the future of electric utility regulatory models in Hawaii. HSEO has contracted with Boston-based London Economics International (LEI) to carry out the study, which is expected to be completed by January 2019.

As a part of this study, you are invited to share your thoughts and input on the future of electric utility regulatory models including performance based regulation and the role the Public Utilities Commission (PUC) plays in achieving state energy goals, including achieving 100% renewable energy and minimizing rate increases. We welcome everyone's participation and request that you RSVP at the link below. Light refreshments will be served.
