**COMMUNITY DISCUSSION ON
ELECTRIC UTILITY OWNERSHIP
AND REGULATORY MODELS
WAILUKU COMMUNITY CENTER
NOVEMBER 13, 2018
6:00-7:30 P.M.
Arrival time: 5:45 P.M.**

The Hawaii Legislature has directed the Department of Business, Economic Development & Tourism (DBEDT) to undertake a study on the future of electric utility ownership and regulatory models in Hawaii. As a part of this study, London Economics International and Meister Consultants Group invite you to share your thoughts and input on the future of electric utility ownership and regulatory models including performance based regulation and the role the PUC plays in achieving state energy goals, including achieving 100% renewable energy and minimizing rate increases.

We welcome everyone's participation and request that you RSVP at the link below. Light refreshments will be served.
