## Zero Energy Home Design

December 2, 2021  
12:00pm - 1:30pm

This free webinar provides guidance on net zero energy design for architects, contractors and others involved in low-rise residential development. Topics:

- Recent UH research on how Hawai'i homes consume energy
- Cost effective beyond-code energy efficiency strategies
- Integrating solar energy for net-zero performance

Presenters: Wendy Meguro, Assoc. Prof., UH Sea Grant/School of Architecture, Eileen Peppard of UH Sea Grant, Rocky Mould of Hawai'i Solar Energy Association and energy consultant Erik Kolderup, P.E.

## Complying With the Energy Code - 2018 IECC with Hawaii Amendments

December 9, 2021  
12:00pm - 1:30pm

A new energy code takes effect for Hawai'i State building projects on December 14 and for other projects no later than December 2022 depending on adoption by the Counties. This free webinar will provide guidance on the energy code compliance process and cover a range of project types including new construction and alteration projects.

Architects, engineers, project managers, county planning & permitting staff, developers and contractors are encouraged to attend.

Presenters: Howard Wiig, Energy Analyst with the State Energy Office and Chair of the State Building Code Council and Erik Kolderup, building energy consultant and energy code specialist.
