Subject: [HIREP Wind EIS] New Comment

A New Comment has been Submitted

was on latimes.com on 2/4/11 the day after the molokai hirep scoping meeting and saw a small article of how enviromental groups had a suit inthe works agains the energy program to locate 200 plus wind turbines in the shallow areas in marthas vineyard mass. a enviromental protected area for endangered whales and birds,pelicans...the energy department stated that this ocean area where the turbines will be located has minimal marine and wildlife...how do you even try to comment on this
