Subject: [HIREP Wind EIS] New Comment

A New Comment has been Submitted

I am opposed to the windmill project. I believe there is a tendency to think it is clean and good for us all. It is really ugly to look at, kills birds, is very vulnerable to the weather and ocean and can't be good for fish life or whales in particular. I doubt if you really care about anyone's opinion at this stage though. Why not try solar here in Hawaii.
